

MEMORYBOOKS

Like a Yearbook, but Better. And for Work.

Modernizing Milestones with MemoryBooks

Let's be real. Celebrating every employee service anniversary can quickly become a full-time job. It's not that you don't want to recognize each one, it's that it's just too time consuming. Remembering 100+ service anniversaries and celebrating them all? Forget about it. Best case scenario is a quick card passed around to their team with some messages like "You're great!" hastily scribbled, and maybe a gift card.

We've changed that with MemoryBooks, a new, modern take on celebrating service awards. With MemoryBooks, you set automated reminders for upcoming anniversaries, include teammates and colleagues, and give employees an interactive experience like no other. Say goodbye to messy calendars, huge excel files of employee start dates, and harried trips to the local store to get a physical gift card. MemoryBooks will give you a powerful (and extremely easy) way to recognize employees for their workplace milestones.

KEY FEATURES :

- Automate reminders for upcoming service milestones
- Share kudos, images, and memories
- Customizable to fit your company's brand
- Include a message from company leadership
- See MemoryBooks in the recognition feed
- Automate MemoryBook delivery on the right day, every time

Make memories more meaningful with MemoryBooks.
